

KITCHEN

MIXER TAP COLLECTION

LIANO II & URBANE II

Inspired by the emerging fashion of modern Australasia our Caroma Collection represents the best of Caroma's leadership in bathroom and kitchen design and is sure to make a statement in any home.

Creating your own home has always been part of the New Zealand dream; the opportunity to design a unique space that both complements and elevates your individual style. The Caroma Collection will provide you the freedom to create your dream bathroom or kitchen; one that enables an experience of personal luxury through customising key design elements and durable colour finishes.

The collection proudly represents fashionable Australasian styles, made from the highest quality materials and incorporates the latest in sustainable innovations.

"Combining the aesthetic appeal of the stunning Liano II and Urbane II bathroom collections, this new **Kitchen Mixer Tap Collection** is the perfect balance of design and functionality. Available in multiple functions and a varied colour palette, this collection can be tailored to let your personal expression and culinary passion shine."

Kitchen mixer taps

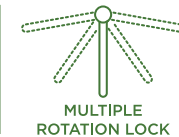

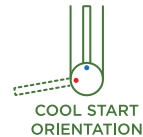

Embracing a distinctly modern Australasian style, the Caroma Colour Kitchen Mixer Tap Collection is a combination of functional and design unity.

Environmentally friendly, durable and hard wearing our premium PVD* finish comes with a 5 year warranty.

All mixers have a water efficient WELS 5 star flow rate (6L/min) with an optional ultra-water efficient WELS 6 star (4.5L/min) flow.

Kitchen Mixer Tap Collection is available in 5 finishes:

- Chrome
- Matte Black
- PVD Brushed Brass
- PVD Gunmetal
- PVD Brushed Nickel

*PVD stands for Physical Vapour Deposition, for more information visit caroma.co.nz

Features

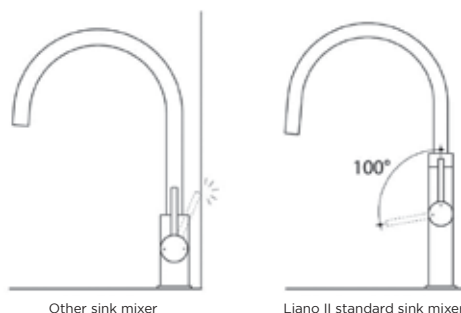

Interchangeable handles

Mix and match your mixer tap. Personalise by pairing the tapware with either the Liano II or Urbane II handle, sold separately.

Cool Start Design

With energy efficient Cool Start design, only cold water flows initially, so your pipes are not filled with hot water unnecessarily. Only when you deliberately move the lever to the left does hot water get added.

Multiple lock rotations

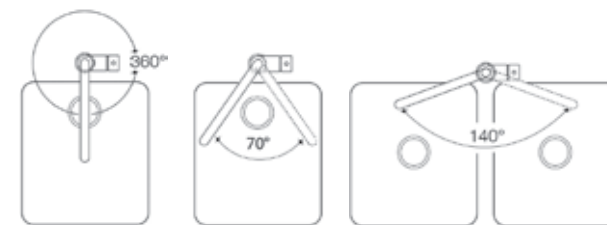

First-in-market to offer multiple outlet rotation locks for installation flexibility when used with single or double-bowl kitchen sinks.

Outlet rotation can set to:

Standard Mixer Taps, 70°, 140° or 360° rotation angles (single and double bowl)

Pull-out Mixer Taps 70° or 140° rotation angles (single and double bowl)

Pull-Down Mixer Taps 140° rotation angle (double bowl)

Pull-out & Pull-down added features

Pull-out

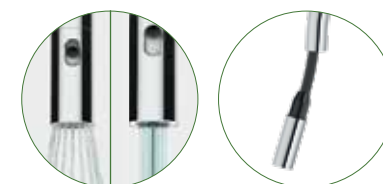

Pull out hose with spring load retraction

Pull-down

2 function spray options: aerated flow and veggie spray

Magnetic spray docking

EXPRESS YOUR
colourful
PERSONALITY

Express your individual design personality with Liano II and Urbane II.

Both elegant styles feature a highly durable, palette of 5 beautiful colour finishes, allowing you to customise your kitchen with your unique style and taste.

Think about how you use your kitchen tapware:

Whether you're looking to buy kitchen tapware as part of a renovation, new build or simply because your current mixer is in need of replacement, it's important to think about the everyday tasks you use it for. For example, food preparation, washing dishes, rinsing dishes, making drinks, washing hands or even watering your plants. Considering all the facts will help you choose the right combination of features.

Choosing the right kitchen tap:

CONSIDER THE MOUNTING TYPE – DO YOU WANT IT DECK (BENCH) OR WALL MOUNTED:

Deck mounted – Is a more contemporary look and gives you greater flexibility for kitchen sink placement.

Wall mounted – Gives a more classic look and is more cost effective if you're replacing an old wall-mounted kitchen tap.

CONSIDER HOW YOU WANT TO CONTROL YOUR KITCHEN TAP:

Mixers – Contemporary look and simple single handed operation.

Also, if you prefer a mixer do you want the handle positioned on the side, front or top? Methven have deck mounted mixers that allow you to position the handle at either the front or side. **Separate handles** – The classic look, allowing you to control the cold and hot water individually.

3. CONSIDER YOUR SPOUT HEIGHT – HIGH VS LOW:

High spout – Gives a more contemporary look and makes filling large pots much easier.

Low spout – Is great when space is at a premium, such as when you have a cabinet or window above the sink.

4. WHAT ABOUT A PULL-OUT SPOUT:

This is a feature where the spout head pulls out towards the sink on a flexible hose, giving increased flexibility and manoeuvrability – very handy for cleaning vegetables, rinsing pots and pans or rinsing down the sink.

IMPORTANT: KNOW YOUR WATER PRESSURE.

When choosing your showers and tapware it is important to know what water pressure your home has. New Zealand homes have three different types:

- Mains
 - Unequal
 - Equal Low
- While most Methven products are designed to operate on all pressure installations, some products require mains pressure to operate effectively.

1. HOW TO CHECK YOUR WATER PRESSURE:

If you have...

• Electric Water Heaters (Hot Water Cylinders)

The operating pressure on each product is clearly labelled using the following icons:

MAINS PRESSURE.

Operates on mains pressure or low pressure. Low pressure means you have Unequal or Equal

• Gas Water Heaters & Heat Pump Hot Water Heaters

You will have mains pressure.

• Solar Water Heaters & Tank Water Supply

These can vary considerably, so check with your plumber. Again, if you're unsure ask your plumber.

ALL PRESSURE.

Operates on all pressure installations above 35kPa; this is mains or unequal.

Your kitchen, the heart of your home

You spend more active time in the kitchen than any other room in the house, and your kitchen tapware is at the heart of this - so it's important to select the tapware that's right for you.
