

METHVEN

SHOWERS & TAPWARE

Collection
2020

Creating amazing water experiences since

1886

Creating amazing water experiences is what we do every day at Methven, and have done since 1886 when George Methven first started as a producer of brass and iron hardware in Dunedin, New Zealand.

Today, Methven is world renowned for beautifully designed, award-winning showers, taps and valves. It all stems from our knowledge of water. Our unique history as an island nation has taught us to take care of nature's most precious resource.

Over the years we have learned how to harness its power to cleanse, calm, refresh and invigorate. And it's this expertise - combined with our passion for design and innovation - that fuels our ongoing mission to create amazing water experiences, just for you.

Icons Menu

To help you to identify important product features, we have placed icons beside each product. When you're browsing through the brochure, simply come back to this page and refer to each icon meaning.

ALL PRESSURE DESIGN

Suitable for all water pressure installations (mains, unequal and equal low) above 35kPa.

NEW PRODUCT

\$1 TRIAL

Trial this handset for 30 days for just \$1.

MAINS PRESSURE DESIGN

Suitable for mains water pressure installations above 150kPa.

VARIABLE SPRAY

Variable spray at your control. From a firm invigorating spray to relaxing and everything in between.

EQUAL LOW PRESSURE DESIGN

Suitable for equal low water pressure installations 120kpa and below.

DZR BRASS

Dezincification Resistant (DZR) brass bodies last longer and help maintain water quality.

CONTROL WATER DIRECTION

The directional aerator includes a built-in swivel that enables you to manually adjust the direction of your water and minimise splashback. (Perfect for taps that sit directly over the sinkhole).

FLEXIBLE RAIL INSTALLATION

Adjustable mounting brackets for easy retrofit to existing installation holes.

LIFEMARK™ APPROVED PRODUCT

Designed to be easy to use and accessible for everyone, regardless of age and ability.

SWIVEL SPOUT

Smooth, elegant and simple to use, our swivel spouts give you 360° control of your water flow.

Lifemark

CERT™

PRODUCT PARTNER

Lifemark™ independently certifies homes and products that have been designed to be easy to use and accessible for everyone, regardless of age and ability.

A Lifemark™ Approved Product is tested to meet age friendly Lifemark™ Standards of usability adaptability and safety.

To find out more visit www.lifemark.co.nz

IMPORTANT: KNOW YOUR WATER PRESSURE.

When choosing your showers and tapware it is important to know what water pressure your home has. New Zealand homes have three different types:

- Mains
- Unequal
- Equal Low

While most Methven products are designed to operate on all pressure installations, some products require mains pressure to operate effectively.

1. HOW TO CHECK YOUR WATER PRESSURE:

If you have...

- **Electric Water Heaters (Hot Water Cylinders)**
Check the label on cylinder, and look for the words mains pressure or low pressure. Low pressure means you have Unequal or Equal Low pressure.
- **Gas Water Heaters & Heat Pump Hot Water Heaters**
You will have mains pressure.
- **Solar Water Heaters & Tank Water Supply**
These can vary considerably, so check with your plumber.

Again, if you're unsure ask your plumber.

2. LOOK FOR THE ICON THAT CORRESPONDS TO YOUR PRESSURE:

The operating pressure on each product is clearly labelled using the following icons:

MAINS PRESSURE.
Operates on mains pressure installations above 150kPa.

ALL PRESSURE.
Operates on all pressure installations above 35kPa; this is mains or unequal.

EQUAL LOW PRESSURE.
Operates on equal low pressure installations 120kpa and below.

Designed with you in mind

We want to make your experiences with water truly memorable. To do this we spend a lot of time studying and researching what people want, anticipating even the smallest of needs to deliver truly amazing water experiences.

Every detail is considered. From optimising the spray from our shower heads for better warmth and coverage; to a sliding switch instead of a conventional rotating head to make changing shower functions easy even with wet, slippery hands; to a built-in footrest for shaving your legs. Small details of your entire bathroom experience have been improved to create a big impact - and always designed with you in mind.

Steve Dixon

Toolmaker
32 years of service

Guaranteed quality

We're proud to stand by each and every one of our products with a 10-year, 20-year or lifetime warranty.

The reason for this is simple: we design and engineer our products here in New Zealand, so that we have control over the process from start to finish. We constantly push for perfection. In fact there is not a single component that hasn't been considered and refined for quality and durability at every stage - from design and engineering right through to manufacturing, crafting and even packaging.

Lake Wakatipu
Queenstown, NZ

Committed to the environment

At Methven we're committed to protecting the planet and reducing our environmental impact to help conserve the Earth's natural resources.

Water is the Earth's most precious commodity. Currently around one fifth of the world lives in a water scarce region. And with water usage growing at twice the population rate, its preservation will only become more vital in years to come.

That's why at Methven we make taking care of water a primary focus in every product we develop.

For example, did you know that your shower uses around 30% of your household water consumption? So we've developed innovative technologies - such as Satinjet and Aurajet - that deliver a luxurious shower experience, all whilst actually using less water.

Methven. Conserving energy and water to protect
the planet for generations to come.

Your bathroom, the choice to relax or revitalise

Your bathroom plays a vital role in your day. It invigorates you in the morning and relaxes you in the evening. So when you take on a bathroom project, be sure to consider the things that are most important to you with the help of this quick guide.

1. DECIDE WHAT TYPE OF BATHROOM YOU NEED:

When planning your new bathroom it's important to begin by thinking about how it will be used and by whom. People's requirements can often be very different:

Family bathroom: In a family bathroom you want to create a space that caters for growing families.

2. MAKE A LIST:

Before planning your layout think carefully about what you like and dislike about your current bathroom. Make a list and prioritise which features you'd most like to see in your new bathroom. Maybe it's an oversize walk-in shower, a large vanity with two sinks, a separate enclosure for your toilet, or a large free-standing bath.

3. GET INSPIRATION:

Gather inspiration of bathrooms you like from magazines and the internet. This could help when you're planning your layout.

Ensuite: An ensuite should be a sanctuary that's both luxurious and practical – a space where you can escape and relax.

Guest bathroom: Here you want to create a space that is both welcoming and pampering.

Rental property: Reliability and durability are the most important when selecting products for a rental property.

Some handy tips

Whether it's a new home build, renovation or a quick refresh, Methven has you covered with showers and tapware to suit any bathroom.

QUICK BATHROOM REFRESH

This can be as easy as changing your shower, either the shower handset or the whole rail shower. It's not difficult to do – either by screwing in a new handset on to your existing hose, or retro-fitting a new rail shower with adjustable mounting brackets so there's no need to drill additional holes. You'll be surprised at how a little added shower luxury can improve your day.

NEW BUILDS AND RENOVATIONS

When you're ready to choose bathroom fittings, start with the shower first. Why?

Because the shower is an important space. You spend a lot of time in it and for many it's the only time of day when you get some 'me' time.

4. PLANNING YOUR LAYOUT

Your new bathroom layout can make all the difference, so be sure to plan carefully:

Bathtub – These days many people are trading or downsizing their bath for a luxurious walk-in shower. This can be a great option, although you may want to consider retaining at least one bath in the house – it can add to the value of your property.

Vanity – The vanity plays an integral role in your bathroom – choose a spot that won't interfere with your traffic, and make sure there's room above for mirror and wall cabinets.

Shower – Make the best use of space in small bathrooms by going for an open walk-in shower that doesn't need a curtain or door.

Plumbing Practicalities – Plumbing is a major cost in any bathroom project. In a renovation, try to keep costs down by limiting the need for adjusting your existing plumbing set-up.

Your shower experiences

Your shower should be a highlight of your day, transforming body and mind. But everyone has their own idea of the perfect shower. That's why at Methven we've spent a huge amount of time researching people's preferences, and creating innovations that turn your shower time into an amazing experience, every time.

VJet°

A shower to suit your ever-changing needs.

Its smooth handset slider allows you to activate a seamless spray transition - from firm, to gentle, and everything in between.

Aurajet°

Our design looks amazing and feels divine.

20% more spray force and twice the amount of water on your skin than a conventional shower*.

* Compared to a Methven Conventional Shower at 9L per minute.

Satinjet°

A sensation only your skin can truly understand.

An amazing full-body shower sensation. Satinjet turns an everyday ritual into an experience like no other.

Airstream™

Feels like your own personal rain shower.

Airstream™ technology mixes air with water to create a refreshing, rain-like more voluminous shower experience.

Which shower?

There's an abundance of different shower types to choose from across the Methven range. Here's a quick guide to ensure you choose the right shower for your bathroom environment:

RAIL SHOWER

Offers great flexibility – height adjustability so the smallest or tallest users can enjoy a great shower, plus a handset that can be picked up for direct body showering. Perfect for the family bathroom.

SHOWER SYSTEM

The ultimate shower for those who want the best of both worlds. Enjoy the flexibility of a rail shower with the added luxury of an overhead shower. Great for ensembles.

OVERHEAD SHOWER

For those who want an elegant yet minimalist look and a fully immersive experience. Overhead Showers are the ideal choice.

WALL SHOWER

Compact, durable and easy to clean. A popular choice for confined areas, commercial spaces and rental properties.

HI RISE SHOWER

A wall shower with the added bonus of height adjustability. Works well in a family bathroom.

METHVEN

VJet®

A shower to suit your ever-changing needs.

Introducing the award-winning Methven VJet® Tūroa Shower.

Because your showering needs are always changing, we set out to create an experience that's in your control.

Cleverly hidden channels create spirals of water, precisely released through individual nozzles. A smooth slider allows for seamless transition from a firm, invigorating spray to a gentle, enveloping warmth and everything in between.

Whether you're in need of revitalisation, relaxation or simply getting clean, VJet® is a shower without limitations, uniquely tailored by you.

All this adds up to a unique experience that transforms your day, every time you shower.

VJet®. My shower. My way.

METHVEN

Aurajet®

Our halo shaped design looks amazing and feels divine.

Aurajet®, our uniquely advanced design and invigorating shower turns conventional showering on its head.

Hidden nozzles generate individual jets of water that collide against precisely angled surfaces hidden within the contours of the unique halo-shaped showerhead.

The result is a stunning fan of luxuriously dense droplets that delivers a highly efficient shower with 20% more spray force and twice the amount of water contact on your skin than a conventional shower*. All this adds up to an enveloping warmth that has to be felt to be believed, and a heavenly experience that puts you in a great space, every time you shower.

TRY BEFORE YOU BUY – Experience the amazing benefits of Aurajet in your own home. **Trial the Aio Handset for 30 days for just \$1.** Conditions apply, to start your trial **visit methven.com**

METHVEN

Satinjet®

A sensation only your skin can truly understand.

Turn an everyday ritual into a shower experience with award-winning Satinjet® technology from Methven.

Unlike conventional showers, Satinjet® uses unique twin-jet technology to create optimum water droplet size and pressure, with over 300,000 droplets per second. The result is an immersive, full-body shower sensation that transforms your regular shower into an experience like no other.

And because we know everyone has their own idea of the perfect shower, Methven has crafted a range of Satinjet® showers you can match to your individual needs – from gentle and enveloping to powerful and invigorating.

Satinjet® from Methven – prepare yourself for a truly sensational shower experience.

TRY BEFORE YOU BUY – Experience the amazing benefits of Satinjet in your own home. **Trial the Waipori Handset for 30 days for just \$1.** Conditions apply, to start your trial visit methven.com

OUR RECOMMENDATIONS FOR LOW & UNEQUAL WATER PRESSURE

While all Satinjet showers are designed to operate on all pressure installations some are optimised to perform better than others on Unequal and Low Pressures. Here are our recommendations:

UNEQUAL – WAIPORI

Good balance between force and coverage.

LOW & UNEQUAL – KIRI

Good coverage and larger droplets.

LOW – MAKU

Compact spray to optimise the spray force.

Satinjet® Koha MK2

A classic form with modern design accents, the Koha shower collection brings a distinctive design aesthetic. Organic curves meet crisp edges in a look that's as practical as it is beautiful.

SATINJET

A full-body shower experience, like no other. Satinjet's colliding twin jets produce over 300,000 droplets of water per second for the ultimate shower experience.

MASSAGE

The luxurious Satinjet experience with an added massage function for a more powerful spray - ideal for rinsing your hair.

ULTRA WIDE COVERAGE

A full-bodied spray for all-over warmth and maximum body contact.

Our tapware and mixer innovations

At Methven we like to make things better.
So we spend a great deal of time and effort on research
and development to improve our products.
Here are just some of our success stories.

Rob Bolus
Head of Technology
32 years of service

METHVEN

Fastflow® II

Unrivalled performance on unequal pressure installations

Developed by Methven in New Zealand, Fastflow is the original standard for delivering constant flow and temperature with unequal pressure. Re-engineered from the ground up, Fastflow II now delivers superior performance.

Improved installation detail and front of wall access to back of wall components, even after fit off, Fastflow II makes installation and maintenance easy.

CERAMIC DISCS

Reliable technology that saves water
– and money

Ceramic discs ensure your taps work well, are safe to use and help you to conserve water.

A more durable replacement for conventional washers, ceramic discs won't wear out - which means dripping taps are a thing of the past.

HYPERFLOW™

Faster flow from low pressure systems

An ingeniously simple solution for faster-filling baths and greater shower flow. Upgrade your shower and bath mixers with Methven Hyperflow™ to get significantly better water flow from your existing low pressure plumbing.

**Designed specifically for Equal Low Pressure plumbing systems: check with your plumber if this solution will work for you.*

Minimalist

Inspired by Italian design, this elegant tapware features strict geometry and intersecting cylinders. A simply beautiful range that will enhance any room with its graceful forms.

Your kitchen, the heart of your home

You spend more active time in the kitchen than any other room in the house, and your kitchen tapware is at the heart of this - so it's important to select the tapware that's right for you.

Think about how you use your kitchen tapware:

Whether you're looking to buy kitchen tapware as part of a renovation, new build or simply because your current mixer is in need of replacement, it's important to think about the everyday tasks you use it for. For example, food preparation, washing dishes, rinsing dishes, making drinks, washing hands or even watering your plants. Considering all the facts will help you choose the right combination of features.

Choosing the right kitchen tap:

1. CONSIDER THE MOUNTING TYPE – DO YOU WANT IT DECK (BENCH) OR WALL MOUNTED:

Deck mounted – Is a more contemporary look and gives you greater flexibility for kitchen sink placement.

Wall mounted – Gives a more classic look and is more cost effective if you're replacing an old wall-mounted kitchen tap.

2. CONSIDER HOW YOU WANT TO CONTROL YOUR KITCHEN TAP:

Mixers – Contemporary look and simple single handed operation.

Also, if you prefer a mixer do you want the handle positioned on the side, front or top? Methven have deck mounted mixers that allow you to position the handle at either the front or side.

Separate handles – The classic look, allowing you to control the cold and hot water individually.

3. CONSIDER YOUR SPOUT HEIGHT – HIGH VS LOW:

High spout – Gives a more contemporary look and makes filling large pots much easier.

Low spout – Is great when space is at a premium, such as when you have a cabinet or window above the sink.

4. WHAT ABOUT A PULL-OUT SPOUT:

This is a feature where the spout head pulls out towards the sink on a flexible hose, giving increased flexibility and manoeuvrability – very handy for cleaning vegetables, rinsing pots and pans or rinsing down the sink.

Sink Mixers

Single-lever mixers with a taller spout to suit both kitchen and laundry sinks. With the convenience of easy one-handed temperature and flow control.
