IMPORTANT: Please read all of the instructions before installation.

General:

- Methven recommends this product is installed by a licensed plumber in compliance with all relevant regional regulations.
- It is the responsibility of the installer to ensure a waterproof seal is achieved between the product and mounting surface. If in doubt about the quality of the seal, remove the product and reinstall using silicone to ensure a seal is achieved.

IMPORTANT: Before you begin, turn off the water supply.

Step 1

- Pre-assemble the faceplate seal to the internal diameter of the faceplate.

Step 2

- Pre-assemble the long grub screw to the handle pin leaving 7mm of thread protruding.
- Fit small O-ring to protruding grub screw.

Step 3

- Remove plastic cover from mixer/diverter body.
- Lubricate O-ring on mixer/diverter body and fit trim kit sleeve.
- Apply silicon to rear of faceplate sub-assembly to create a seal with the finished wall surface. Press faceplate onto sleeve and press up against wall surface ensuring the logo is orientated correctly.
- Fit the dome cover by screwing it onto the nut until it contacts the sleeve.
- Fit the handle body to the cartridge spindle and secure with the short grub screw.
- Fit handle pin sub-assembly to the handle body and hand tighten.
