# MINIMALIST MK2 WALL MOUNTED MIXER WITH SPOUT TRIM KIT

# Installation Guide

# **Technical Specifications:**

# **Operating Pressure:**

Min: 150kPa/1.5bar Max: 1000kPa/10bar\*

Optimum: 150kPa/1.5bar - 500kPa/5bar

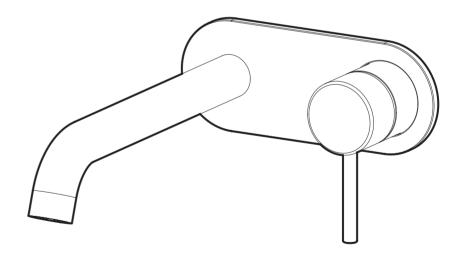

## **Operating Temperature:**

Hot: Max 80°C\* Cold: Min 5°C

#### **Inlet Connections:**

All 1/2" BSP

\* Regional specific regulations apply. Please refer to your warranty statement at www.methven.com

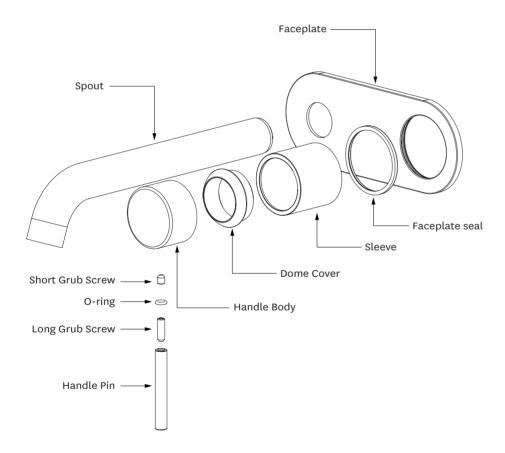

# **IMPORTANT:** Please read all of the instructions before installation.

### General:

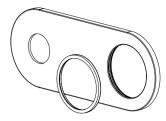

- Methven recommends this product is installed by a licensed plumber in compliance with all relevant regional regulations.
- It is the responsibility of the installer to ensure a waterproof seal is achieved between the
  product and mounting surface. If in doubt about the quality of the seal, remove the product and
  reinstall using silicone to ensure a seal is achieved.

# **IMPORTANT:** Before you begin, turn off the water supply.

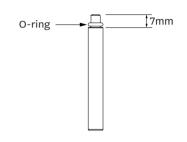

#### Step 1

 Pre-assemble the faceplate seal to the internal diameter of the faceplate.

#### Step 2

- Pre-assemble the long grub screw to the handle pin leaving 7mm of thread protruding.
- · Fit small O-ring to protruding grub screw.

#### Step 3

- · Remove plastic cover from mixer body.
- · Lubricate O-ring on mixer body and fit trim kit sleeve.
- Apply silicon to rear of faceplate sub-assembly to create a seal with the finished wall surface. Press faceplate onto sleeve and press up against wall surface ensuring the logo is orientated correctly.
- Fit the dome cover by screwing it on to the nut until it contacts the sleeve.
- Fit the handle body to the cartridge spindle and secure with the short grub screw.
- Fit handle pin sub-assembly to the handle body and hand tighten.
- Check that the outlet spigot protrudes out from the faceplate by MAXIMUM 8mm (See diagram on the right). If not, carefully trim to size.
- Apply thread tape to the threads of the outlet spigot and screw the outlet spout onto the spigot until the shoulder contacts the faceplate and the spout is facing downwards.
- Turn on hot and cold water supplies and check operation.
