

Installation Instructions

Unscrew and remove the shower head.

Using your hands, turn and fully tighten the shower arm to the wall.

A screwdriver or suitable instrument may be inserted into the arm to apply more torque.

Flow Control (Mains Pressure Only)

If a more economical shower is desired, or if the shower spray is too strong, then a flow restrictor kit (FRD-3, available from your local merchant) may be installed in the shower arm inlet. Flow restriction is not suitable in low pressure installations.

Cleaning Instructions

Unscrew the rosehead from the shower.

Unscrew the shower arm, if required.

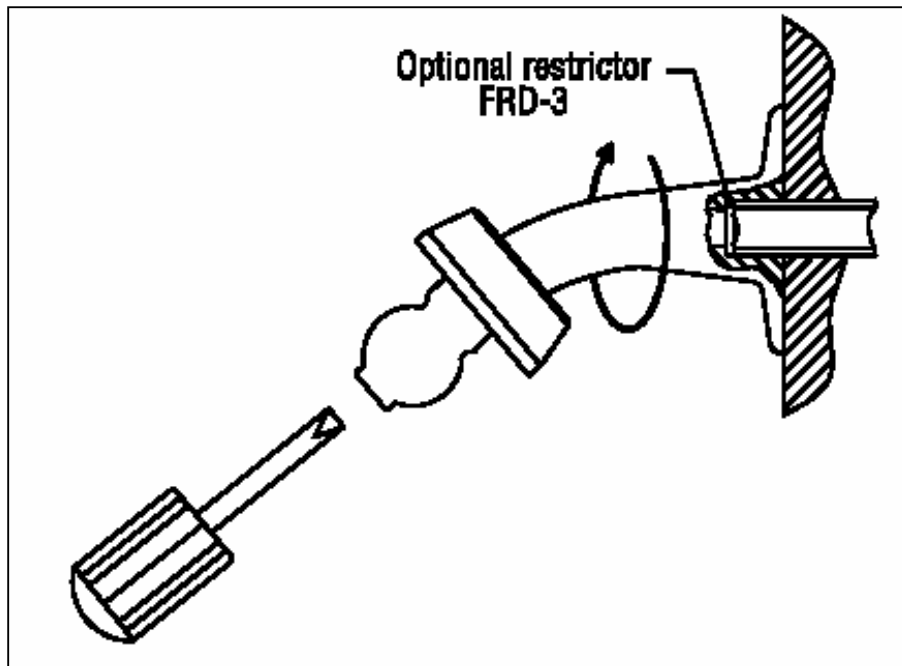

Remove the ring bolt and splined rings.

Using a brush, thoroughly clean all debris from the surfaces of the splined ring.

Re-assemble the shower rose in the reverse order of the above (when re-assembling the shower rose, it is easier to finger tighten the ring bolt from the front, before fully tightening using a screwdriver from the rear).

Screw the re-assembled shower rose to the shower arm.

Spray pattern diameter may be altered by adjusting the ring bolt. To increase the spray pattern diameter, turn clockwise, to reduce turn anti-clockwise. This may be necessary to compensate for varying pressures.

Where Methven tapware or valving (tapware) is purchased for use or on-sale in the context of any business, Methven undertakes to either repair or replace (at its option) that tapware if it is discovered that such tapware contains a material defect, which arose in the course of manufacture.

This undertaking shall not apply if:

1. The defect is brought to Methven's attention later than 2 years after the date of purchase, where the defect relates to washers, "O" rings, lip and other seals and powder coating, or 5 years where the defect relates to any other tapware componentry. All single lever ceramic disc cartridges specified for mains pressure only use, has a lifetime warranty.
2. There is a failure by any person to follow Methven's installation instructions or the tapware is used other than in accordance with Methven's specifications.
3. Evidence cannot be produced which confirms that the relevant tapware was purchased from a Methven authorised distributor.
4. Repair work is performed on the relevant tapware by a person other than Methven, its authorised service agents or any plumber who has not received authorisation **prior** to proceeding with the work.

Conditions:

Proof of purchase details (such as invoice or receipt) will be required to claim under this warranty.

Lifetime warranties are applicable, where mains pressure use only has been specified, on ceramic disc cartridges and will result in replacement of defective parts.

The above undertaking from Methven shall also apply to any purchaser of Methven tapware who is a "Consumer" under the Consumer Guarantees Act 1993, in addition to any other right or remedy which such person may have under that Act.

Methven shall in no way be liable to the purchaser or user of any tapware, for any loss, damage (direct, indirect or consequential), cost or expense suffered or incurred by that person, otherwise than as provided in the above provisions, or as provided under the Consumer Guarantees Act 1993.
