Aurajet Rua Rail Shower With Kiri Thermostatic Shower Valve shown on the cover, see pages 21 and 35

METHVEN Aurajet™

The next generation of showering has arrived.

Introducing AurajetTM. Our most advanced, most invigorating shower experience ever, that turns conventional showering on its head.

Invisible nozzles generate individual jets of water that collide against precisely angled surfaces hidden within the contours of the unique halo-shaped showerhead.

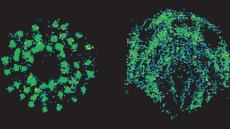

The result is a stunning fan of luxuriously dense droplets that delivers a highly efficient shower with 20% more spray force and twice the amount of water contact on your skin than a conventional shower*. All this adds up to an enveloping warmth that has to be felt to be believed, and a heavenly experience that puts you in a great space, every time you shower.

20%
MORE SPRAY FORCE*

2x
THE AMOUNT OF SKIN CONTACT*

TIONAL AURAJET® SPRAY

Better stimulation of nerve endings

TRADITIONAL

AURAJET® SPRAY

The water flow rate is optimised at 9 litres per minute to be water efficient without compromising the luxurious spray performance

* Compared to a Methven Conventional Shower. Flow rate of both products at 9L per minute and tested as per AS 3662-2013 Appendix H.

METHVEN Satinjet°

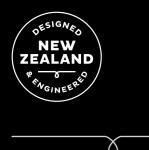

A sensation only your skin can truly understand.

Turn an everyday ritual into a shower experience with award-winning Satinjet* technology from Methven.

Unlike conventional showers, Satinjet® uses unique twin-jet technology to create optimum water droplet size and pressure, with over 300,000 droplets per second. The result is an immersive, full-body shower sensation that transforms your regular shower into an experience like no other.

And because we know everyone has their own idea of the perfect shower, Methven has crafted a range of Satinjet® showers you can match to your individual needs – from gentle and enveloping to powerful and invigorating.

Satinjet® from Methven – prepare yourself for a truly sensational shower experience.

EXPERIENCE CENTRE

George Clarke is an architect, creative director of George Clarke + Partners, and a founder of TV production company Amazing Productions.

"I was filming for Amazing Spaces in New Zealand and walked through one of the bathrooms. Automatically my eye just got drawn to the shower head. For me, design is absolutely everything. Not just about how it looks, it's about how it feels, functions and the experience you get from it.

When I turned the Methven shower on, it was really beautiful. It felt like a really different, more comfortable, quality experience.

What's really clever for me about Methven is the technology, the R&D and innovation that's gone into it. Their team of engineers are obsessed about how water actually comes out of a shower head, what direction the jets are being pushed in, and how you can change the dynamics of that water to give you a unique shower experience. Mind-blowing.

When I found out about their history, I was staggered. When you see new products, innovative design, some things that even look a bit futuristic you tend to associate that with a new company, and think that they're the new kids on the block. Methven have been going for 130 years. That gives me a massive amount of trust and loyalty to the brand. You know that they've got all that experience and knowledge behind them to design and make really beautiful products.

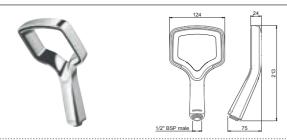

I never under-estimate what that heritage means, not only to the business, but to the things that they make. Methven having that level of innovation and that passion for a unique shower experience meant it was a no-brainer for me to join them".

KIRI LOW FLOW SHOWER HEAD PAGE 18

Our unique showering technology enables users to enjoy a powerful showering experience while only using 6 litres a minute compared to conventional showers that use an average of 12 litres per minute.

This means that 48 litres of water can be saved during a typical eight-minute shower*, that's the equivalent to eight watering cans!

In one year, an average household could save 42,048 litres** of water by switching to a Satinjet low flow shower head.

Methven Taps KITCHEN

METHVEN

THE SHOWER & TAP BRAND.

Deva showers and bathroom and kitchen taps provide a wide variety of products for both domestic and commercial applications. As one of the largest suppliers of showers and taps to the UK market and with over 25 years heritage, Deva has developed a reputation for providing excellent levels of service and customer care, bringing products to the market of the highest quality at the right price. From concept through to manufacture, we are backed by a testing programme unrivalled in our industry.

Deva deliver the latest styles of bathroom and kitchen taps, showers and shower accessories, next day – nationwide. We pride ourselves on our service first policy. Not only do we deliver 98% of orders next day in full, we also aim to provide the highest standards of customer service. Our in-house customer service technicians are fully trained to provide personal, friendly and in-depth support as well as our field based Area Sales Managers.

Deva became part of the Methven Group in 2007 and operates from Methven UK headquarters in Lancashire. Methven as a group, are innovative, design focussed and conscious to produce product ranges which meet both consumer need, legislation and regulatory requirements whilst being environmentally minded.
